

Insert bearing,Pillow blocks

Outer spherical ball bearing with eccentric sleeve D 12-25mm-RAE15-NPP-B

|                       |             |
|-----------------------|-------------|
| Model1) :             | RAE15-NPP-B |
| Mass m $\approx$ kg : | 0.12        |
| size :                |             |
| d :                   | 15          |
| Dsp :                 | 40          |
| C :                   | 12          |
| C :                   | -           |
| B :                   | 19          |
| S :                   | 6.5         |
| d :                   | -           |
| d :                   | 23          |
| D :                   | -           |
| C :                   | -           |
| B :                   | 28.6        |
| dmax. :               | 28          |
| W :                   | 3           |
| Basic load rating :   |             |
| Dynamic load n :      | 9800        |
| Static load n :       | 4750        |
| Reference bearing2) : | 6203        |
